

DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank Tice on 2/12/2010.

The application has been amended as follows:

1.1 **Cancel** Claim 17.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

3. Rose and McGrath et al. teach polymers which have segments meeting the definitions of ion-conducting and spacer regions as claimed by Applicants, however, are not taught as being alternating copolymers and are random copolymers based on the synthetic methods used to create the polymer. Shinoda et al. again teaches segments which would meet the definitions of the regions above depending on variable group selection, however,

contains a disulfonylimide segment which is excluded from the present claims by the use of the "consisting of" language in Claim 1. Helmer-Metzmann et al. teaches a copolymer wherein segments are sulfonated or not sulfonated depending upon the presence of electron donating and withdrawing groups similar to the claimed invention, however, do not meet the definition of Claim 1 requiring a spacer segment containing four or more arylene subunits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jaison P. Thomas whose telephone number is (571) 272-8917. The examiner can normally be reached on Mon-Fri 9:30 am to 6:00 pm.
5. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy P. Gulakowski can be reached on (571) 272-1302. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

6. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
